APPENDIX A

Co-Authors Kate and Wayne Jones Present
“AWESOME PARENTING SERIES®”
Based on their book
“Great Parenting Skills for Navigating Your Kid’s Personality”

These presentations support your school and board mental health strategy. Your school can embrace the personality-focused themes of these strengths-based presentations. Kate Jones & Associates has delivered informative, engaging interactive workshops to great critical acclaim for over a decade. In response to many requests, we have expanded the “Awesome Parenting Series®”. Workshops 1-4 are based on our book **Great Parenting Skills for Navigating Your Kid’s Personality**. All workshops are supported by engaging visuals as well as an audience participant manual. At the end of each workshop, participants will walk away with strategies to help them improve communications with their offspring while building better relationships that can ultimately lead to stronger families.

Workshop 1: Understanding Your Kid’s Behaviour **Foundational Workshop**
This presentation guides participants through an exploration of the four “colourful” personality types, including a discovery of their own temperament type as well as their parenting type. They will then learn how to work more effectively with their respective offspring’s specific behavioural pattern, while promoting positive self esteem, confidence and resiliency in each child.

Workshop 2: Stressed Out! **Application Workshop**
This presentation reveals the answer to what stresses each of the four “colourful” personality types. Participants will learn what challenges each temperament deals with, and what they can do to help alleviate some of the stress. We will also explore some general stress techniques designed specifically for parents.

Workshop 3: Homework Wars! Meeting the Challenges with Personality Strengths
Application Workshop

Participants will learn that what worked for them as kids growing up may not work for their offspring. The four "colourful" personality types learn very differently and therefore require specific environments at home to thrive. The audience will explore ways to create an area in their home that will encourage learning and cooperation so that homework wars can be a thing of the past!

Workshop 4: Talk to Me!

Application Workshop

This session will include information on introverted and extraverted children, or "Innies" and "Outies" as we lovingly refer to them. This is an important link of understanding your kid's development. No surprise also that each of the four "colours" has a preference for the way in which they communicate. By looking at these two components you will enjoy more positive conversations with your children.

Workshop 5: Raising Positive Happy Kids!

This seminar is about helping your child enjoy a wonderful life. How? Through learning some basic positive psychology, which is the science of happiness. Learn how you can help your kids see what is working well in their lives and learn to live with resilience and optimism so they can begin to thrive at home, and at school.

Workshop 6: "Surviving Your Adolescents: How to Manage and Let Go of Your 13-18 Year Olds"

Participants will learn how to deal with "The Snub", what is "normal" adolescence, teens and risk and establishing "house rules". The presentation is based on proven teen parenting principles developed by Dr. Thomas Phelan (author of 1-2-3 Magic). This workshop is facilitated by Wayne Jones, M.Ed.

Keynote Address: Great Parenting Skills for Navigating Your Kid's Personality

This is a dynamic one hour presentation introducing parents to positivity and "colourful" personalities.

Facilitator Kate Jones, B.A. (Psych/English), M.Ed., specializing in temperament and positivity, co-authored an assessment survey and train-the-trainer guides based on temperament and is certified in Solution Focused (Positivity) counselling. For over a decade Kate has led numerous workshops in many schools and educational conferences.

Facilitator Wayne Jones, M.Ed., has been in education for over 35 years as a teacher, department head and principal, at both the elementary and secondary levels. He brings this rich experience and a dry sense of humour to presentations and workshops that will connect with parents and educators alike.

No increase in cost! An exciting, informative, interactive workshop presentation or keynote with Kate Jones & Associates is still only \$500 + HST, which aligns nicely with the PRO Grant funding structure. Workshops are 90 minutes in length, with an optional Q&A to follow. Keynote pricing available upon request. For schools and organizations at a distance of more than 80 Km from Oakville Ontario, a reasonable transportation and incidental expense fee will be negotiated.
